[In this BBC video](#), correspondent Jane Standley reports that Building 7 has collapsed; meanwhile (at the 1:17 mark), a fully intact Building 7 can actually be seen — still standing — behind her. Who fed this information to Standley? Apparently, someone who had inside information about, and/or control over, the event itself, released that information to the media prematurely.

[In another news clip](#), while Building 7 is seen standing fully erect and showing no signs of impending trauma, CNN's Aaron Brown gives the following report: "We are getting information now that one of the other buildings, Building 7, in the World Trade Center complex, is on fire and has either collapsed or is collapsing..."

Andreas von Bülow on 9-11

"You don't get the higher echelons" – the "architectural structure" – which masterminds such terror attacks. This level, the organization doing the planning, such as Mossad, is primarily interested in affecting public opinion. The architectural level planners use corrupt "guns for hire" such as Abu Nidal, the Palestinian terrorist who was "an instrument of Mossad."

The terrorists who actually commit the crimes, such as the 19 Arabs who allegedly hijacked the planes on 9-11, are "the working level." "The working level is part of the deception."

"Ninety-five percent of the work of the intelligence agencies around the world is deception and disinformation," which is widely propagated in the mainstream media creating an accepted version of events. "Journalists don't even raise the simplest questions; those who differ are labeled as crazy."

– Andreas von Bülow, German parliamentarian who oversaw the secret service from 1969 to 1994, to Christopher Bollyn, November 2001
"German Intelligence Experts: 9-11 is Hollywood Deception"

9-11: "A Hollywood Production"

"The deathly precision" and "magnitude of planning" behind the 9-11 attacks would have needed "years of planning." Such a sophisticated operation would require the "fixed frame" of a state intelligence organization, something not found in a "loose group" of terrorists like the one allegedly led by Mohammed Atta while he studied in Hamburg. Many people would have been involved in the planning of such an operation. The absence of leaks is further indication that the attacks were "state organized actions."

How's this for a 911 Conspiracy Theory ?

19 Arab muslims outwitted the most sophisticated military defence system in the world - 4 times in succession

They defeated the laws of physics - by having collapsing buildings fall at free fall rate

They defeated the laws of chemistry - by melting steel girders [2750F] with aviation fuel [1517F]

They brought down THREE WTC buildings (# 1,2 and 7) by hitting only TWO of them

Each building happened to fall neatly into its own 'footprint'

All of the hijackers were on board - we're not sure yet why none of their names appeared on any of the flight manifests

At least five of the hijackers turned up alive and well, after their suicide missions on 9/11 - they now live in the middle east - some interviewed by the BBC!!

A plane hit the Pentagon (one of the most guarded buildings in the USA) - Unfortunately no CCTV footage of the actual plane exists (the wreckage, plane parts, luggage and bodies were never found)

Cell phone calls were made at altitudes and speeds that are usually impossible (over 2,000 feet / over 230 mph). We still don't know how they did this

Meet Marvin P. Bush

Brother of George W. Bush and Son of George H. W. Bush

Bush was on the board of directors of Securacom from 1993-2000, which controlled security for the World Trade Center Towers up until September 11, 2001.

OH but it gets better!

Not only did Securacom control security for the WTC they also controlled security for Washing Dulles Airport where security allowed some hijackers to board the flight that crashed into the Pentagon on Sept. 11, 2001.

The very same company maintained security for United Airlines Flight 175 which hit the South Tower of the World Trade Center and Flight 93 which crashed into a field in Shanksville, Pennsylvania.

Why is this picture important?

1 The intentional omission of the core in the 9/11 Commission Report shows guilt.

2 Any truthful architect will tell you after looking at that design that there is no way one plane can bring down such a structure. Those towers were meant to withstand multiple plane impacts. They weren't brought down by planes at all. They were brought down by controlled CIA and Mossad demolition and that's why Barack Obama the CIA asset in the The White House doesn't want anyone to question the "official" 9/11 fairy tale that the George W. 9/11 FACT SHEET

What occurred on September 11th, 2001 is a matter of facts, physics and unprecedented violations of national protocol by American officials themselves. Here are 10 points to consider. There are hundreds more.

- 1.** No steel-framed building before or since 9/11 has ever collapsed due to fire.
- 2.** No official agency (FAA, FBI, or the airlines) has ever released a list of the 9/11 passengers. But within hours, the FBI released a list of the hijackers.
- 3.** On September 11th, 2001 the FAA successfully grounded all aircraft—an unprecedented operation. Yet it could not successfully scramble any jet fighters that day—a normal procedure occurring over 100 times a year.
- 4.** Building 7, a 47-story skyscraper and part of the World Trade Center complex, was not struck by a plane but collapsed in 6.5 seconds at 5:20 p.m. on September 11th, in the exact manner of a controlled demolition.
- 5.** There was no visible airplane debris where Flight 93 supposedly crashed in Pennsylvania—only a smoking hole in the ground, much like a bomb crater.
- 6.** Office fires burn at low temperatures of 600-800 dF. Steel melts at 2750 dF. Jet fuel is an ordinary hydrocarbon; its maximal burning temperature is 1200 dF in open air. Neither jet fuel nor the burning contents of the buildings could have caused the towers' steel structure to buckle or fail.
- 7.** Tests have shown that cell-phone calls cannot be made at altitudes over 4000 to 8000 feet, as cell towers are located on the ground. Commercial airplanes fly at 30,000 feet and above. No passenger could have successfully placed a call for help by cell phone from an airborne plane on 9/11, as reported.
- 8.** 9/11 was immediately declared an "act of war" by President Bush. The rubble from Ground Zero was carted away and the steel sold off without examination.
- 9.** Enormous profits were made by insiders on plummeting stock prices of the two airlines involved in 9/11—American and United. Federal law protects their identities.
- 10.** Accepting victims' compensation barred 9/11 families from further discovery through litigation.

September 11, 2001 - Never Forget

Never forget the day the United States Government lied and deceived this nation and the world for profit and control

FALSE FLAG (aka Black Flag) operations are covert operations designed to deceive in such a way that the operations appear as though they are being carried out by other entities. The name is derived from the military concept of flying false colors; that is: flying the flag of a country other than one's own. False flag operations are not limited to war and counter-insurgency operations and can be used during peace-time.

Meet Lucky Larry

This is Lucky Larry Silverstein, the owner of the World Trade Center towers. On the day of 9-11, 2001, Larry just so happen to have a doctor's appointment that was canceled (so he says). Instead of showing up at the top of the World Trade Center tower for his routine daily breakfast, that he has traditionally done for many years, he decided to walk around New York City. Lucky Larry survived the 9-11 attacks as did his family. Larry just so happen to take out a LARGE insurance policy on his world trade center properties weeks prior to the attacks that explicitly included "terrorist attacks". Pictured with Lucky Larry is his daughter Lisa. She also so happen on that frightful day miss work and escaped harm. Also, Larry's son was running late for work. He too worked at the World Trade Center. Why is Larry so damn "lucky"? He & his family cheated death and he is walking around with billions of dollars in his pocket.

Way to go Larry! You LUCKY bastard!

Larry Silverstein and 9/11

Meet Larry,

He's the 1%er that owned the WTC. He insured the WTC seven weeks before 9/11. He "earned" ~4.6 billion for the two attacks. He's also the guy quoted saying "pull the building."

He also owns Sears Tower in Chicago. It was recently renamed Willis Tower. Funny thing, he's using the exact same security company (Kroll's) to protect this tower that was used in the World Trade Center "Terrorist attack" (read controlled demolition).

Finally, big money firms have been leaving Sears tower. Just be careful 99%ers.

 Most Americans believe that their government is not capable of attacking its own citizens. However, a declassified plan from 1962, entitled *Operation Northwoods*, consisted of: hijacking American airliners, attacking U.S. military bases, blowing up U.S. military ships, and shooting and terrorizing innocent Americans, all to be blamed on Cuba as a pretext for a U.S. invasion. This plan was rejected by John F. Kennedy. *SOURCE: Department of Defense*

  World Trade Center #7 was the third building that was completely destroyed on September 11th, but it was NEVER hit by an airplane! This was a 47-story government building that was taller than any building in San Diego, CA. The controlled demolition of Building 7

Less than 1% of public knows that a THIRD WTC building collapsed

Ask any hundred people how many skyscrapers collapsed on 9-11 in the New York event, and 99% will say TWO, the twin towers. Ask the same people whether they know that WTC7, a 47-story building (left) also fell on 9-11 a few hours after the other two...at least three TV networks televised the collapse...and fewer than one person in a hundred will know what you are talking about! They will even dismiss your query as a "conspiracy theory"! Click on the links below and become informed!

At 5:20 p.m. slightly damaged Building Seven collapsed:

- > It had not been hit by an aircraft
- > It had not been hit by significant falling debris
- > It had not suffered any massive fire
- > It had suffered no known structural damage
- > It was far away from the buildings which fell earlier
- > It fell within its own footprint like an implosion
- > It fell at the rate of a gravity free fall, like an implosion
- > Photos show puffs of smoke like a planned implosion
- > Planned implosions take many weeks of preparation
- > The building owner told the NYFD to "pull it"
- > TV networks were notified it would be brought down
- > Tenants were almost all "sensitive" government offices
- > No steel skyscraper in history had collapsed like this
- > The official government report covered up the cause
